Art & Type on CD

The Scriptorium’s ARType collection is a special series of CD packages which combine the work of exceptional artists with fonts based on their lettering and design work. These packages are attractively packaged for retail sale and have been among our best selling items since they were first introduced. We are still adding to the collection and have recently expanded a number of the packages with additional fonts and art for an even better value.

Alphonse Mucha Fonts and Art

Alphonse Mucha was the most recognized artist of the Art Nouveau period. In addition to setting the style to the poster art movement of 1890s France he also fathered a remarkable folk art renaissance in Czechoslovakia when he returned there after the first world war. Our Mucha collection includes a selection of his best decorative art, plus a large number of original fonts based on his poster lettering. (AT101 - $49)

Arthur Rackham Fonts and Art

Arthur Rackham was probably the greatest book illustrator of the early 20th century, and our Rackham collection includes a huge number of book plates, plus a great selection of original fonts based on his hand lettering and decorative marginalia, including fairy, floral and mythological emblems. The package includes illustrations from a variety of fairy story and mythological books, including Undine, Song of the Volsungs, Tales from the Brothers Grimm and many more. (AT102 - $69)

Howard Pyle Fonts and Art

Howard Pyle was the founder of the Brandywine school of art and was the teacher of great illustrators like N.C. Wyeth and Frank Schoonover. His work was enormously influential and he is regarded as one of the great icons of American illustrative art of the 19th century. Pyle was a true craftsman, and he wrote, illustrated, designed and decorated many of his most famous books.
